There are no friends like old friends who grew up together. Our class of 65 was especially close with most of us attending school together from first to twelfth grade. Joan was a special member of that class. Remember chasing her on the playground trying to pull her pigtails. She was a coaledictorian of our class. Very intelligent personable responsible good friend. Larry Winnett

These were taken at Rocky Mountain National Park on the last trip taken with Joan and Faye Newman (there were many fun trips over the years) to Colorado in August 2017; we sat in the hotel parking lot in Colorado Springs and watched the great eclipse before heading to Estes Park the next morning. I will always cherish the great memories made with Joan and Jack on our travels as they so graciously shared their timeshares with us over the years. I will miss her so much.

“ We were blessed to have Joan in our little group of neighbors. Countless hours of sharing and many hours of fun. I miss my dear friend and am thankful I was allowed to visit with her several times during the last days of her journey.
